

Wealth Planning *beyond your lifetime*

Whether a **financial planning strategy** for settling inheritance tax or an **asset diversification** choice, clients have the opportunity to secure their legacy for their heirs within a transparent, robust planning solution that sits outside both the UK and US taxable estate and outside probate in the UK.

Global clients who are deemed domicile in the UK are subject to HMRC's inheritance tax (IHT) chargeable at 40% for assets over £325k per person. Guaranteed 'whole of life' or 'permanent life' insurance policies held in trust can secure liquidity to settle a significant IHT liability within HMRC's 6 month timeframe - for clients who are ready to plan **beyond their lifetime**.

Vie International connects private clients with the most highly rated US and UK life insurance companies. Our recommendation is independent.

We review both the US and UK markets to design asset preservation plans that suit personal circumstances and financial aims, optimising solutions based on our clients' health, wealth and lifestyle factors.
